

Material Usage Report

ACTUAL vs. THEORETICAL

Report Date: / / to / /
Month Day Year Month Day Year

PROJECT DETAILS

Project: _____

Location: _____

Driller: _____

BORE DETAILS

Bores: _____ Bore Diameter: _____ Bore Depth: _____

Bore Identifiers: _____

If the bores on your project have unique identifiers like SW-62 include the IDs or ranges being reported.

GROUT DETAILS

TG Lite TG Select Target Conductivity: _____ Btu/hr ft °F

BH20 Target % Solids: _____ %

MATERIAL USAGE

	Actual	Theoretical	Difference
Bags Grout			
Bags Sand			
Bags PowerTEC or PowerTECx			
Sand : Grout Ratio			

Signature: _____

Date: / /
Month Day Year

Calculate theoretical values using the GeoPro grout volume calculator.
http://www.geoproinc.com/calculators/grout_calculator.htm

This report is to be returned to the engineer of record.
Do not return to GeoPro unless specifically instructed.
